

BREEZAIR BLACK CHILLCEL OPAL - WORLD'S MOST ADVANCED FILTERS

BREEZAIR CHILLCEL OPAL® & MINI CHILLCEL® PADS

1. **COVID-19:** Due to unique 2 microns filtration, only Breezair provides maximum protection against Covid-19.
2. **POSITIVE PRESSURE:** Breezair throws out **Covid-19**, and all airborne smoke, bacteria and viruses.
3. **NO RUSTING IN METAL:** Metal parts are ruined due to dampness. Chillcel Pads are German Certified G-2 Class, stop all moisture particles and therefore do not cause rust or dampness.
4. **WOOD, PAPER & PLASTER OF PARIS:** Will not damage Books, Furniture or false ceilings.
5. **LOWEST TEMPERATURE:** Chillcel OPAL Pads achieve the lowest temperature output in the international evaporative industry, due to unprecedented **91.5% efficiency**.
6. **HIGHEST VELOCITY:** Chillcel pads provide highest Airflow throughput (Input Vs output ratio).
7. **USES LESS WATER:** Uses the LEAST amount of water, than any other system
8. **FIRE RETARDANT:** Only Chillcel pads are Fire Retardant, protection in case of short circuiting.
9. **7 YEARS AV. LIFE:** Average life of Chillcel Pads is 7 years. With proper servicing they last even longer. Chinese pads only last 2 years.
10. **COVERS LARGER AREAS:** Due to smaller 4mm holes, Chillcel provide more cooling, and can cover larger areas with same airflow.

2 MICRONS DAMPNESS CONTROL

Plus: New Black Chillcel OPAL pads have 4mm Flute (4090), stop all droplets of water. Hence do not cause rusting. AND DO NOT CAUSE DAMPNESS

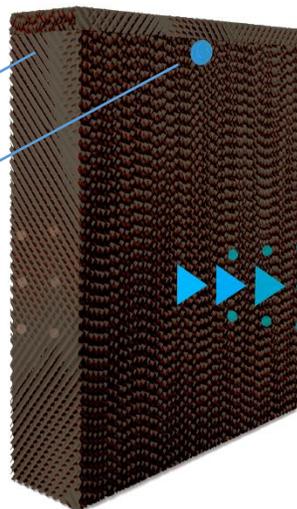

2 MICRONS
(1mm=1000micro)

5 inches thick.
Covers 30% more area
